Return using my account #: _____ Shipping carrier: _____

Due to space limitations, ATS Labs will store test substances up to 60 days after the completion of testing. If disposition is necessary prior to 60 days from study completion, the Sponsor will be contacted to discuss appropriate action. If no testing is requested within 60 days of test substance receipt, ATS Labs reserves the right to discard/return test substance when no other arrangements have been made. If the Sponsor requests test substance to be stored beyond 60 days of the study completion without requesting further testing, test substance storage fees may apply.
